Title: Quillins Store Closing

Date: Week of May 16<sup>th</sup>, 2005

Info: The Quillins grocery store on Lang Drive in La Crosse has now officially closed its doors. The store had rented the grocery store space from Menards. But recently, Menards announced plans to close all the stores in the Menards Plaza Shopping Center, in order to make way for a new Menards Megastore. That's scheduled to open in spring of 2006. Quillins owner, Phil Quillin, says he plans to build a new grocery store in a different location. Right now, he's working on plans to build along Copeland Avenue. The new store will become the anchor of a retail and residential complex.

Title: Minimum Wage Increase

Date: Week of April 14<sup>th</sup>, 2005

Info: 150,000 workers in Wisconsin recently got a raise. Governor Doyle recently issued an order which increases the state's minimum wage from \$5.15 an hour to \$5.70 an hour. The increase was originally scheduled to take effect last September but Republicans who control both houses of the state legislature blocked it from taking effect. This time, Republicans have agreed now to block this emergency order. The increase does not effect those workers who rely mostly on tips for their income. State Representative Jennifer Shilling of La Crosse called the increase long overdue. She says the increase will add to the paychecks of 3,300 people in the La Crosse area. Next June the minimum wage increases to \$6.50.

Title: La Crosse Business

Date: Week of April 20<sup>th</sup>, 2005

Info: The business magazine Inc has ranked La Crosse the 15<sup>th</sup> best city in the nation to do business in. The magazine ranked 274 cities, mostly in terms of job growth. James Hill, the executive director of the La Crosse Area Development Corporation, says this ranking will not fade away when the magazine leaves store shelves. Hill says the city will use the ranking in future advertising, and admits he'll boast about the number whenever he can. Mayor Johnsrud says the city's numbers speak for themselves when it comes to job growth. He believes this ranking will have other cities looking to us for advice.

Title: La Crosse & Minimum Wage

Date: Week of April 14<sup>th</sup>, 2005

Info: La Crosse has now become the third city in Wisconsin to raise its minimum wage above the state level. Supporters of the higher minimum wage demonstrated in front of city hall before the meeting. And as it turns out, a majority of the council agreed with them. 12 council members voted in favor, 4 against. Mayor John Medinger made the wage increase proposal to move the current \$5.15 an hour to \$5.70 in December and \$6.50 in December 2006. Supporters say workers cannot live off of the current minimum wage. Opponents say the minimum wage is a statewide issue.

Title: North-South Corridor

Date: Week of June 16<sup>th</sup>, 2005

Info: Since the North-South corridor was voted down in 1998, the La Crosse Area Planning Committee has tried to find a solution to future traffic problems. And now they think they may have. The LAPC is recommending a relatively small scale extension. They want to extend Highway 53 from the Crossing Meadows Shopping Center in Onalaska down to Gillette Street in La Crosse. They'll extend 12<sup>th</sup> avenue through that area of marsh as well. Compared with the large scale expansion that met such heated opposition years ago, this new proposal has most advocates smiling. The LAPC will now begin figuring out specifics, such as cost and a timetable for the project. This plan will then be put before the public for their opinion later this summer.

Title: Birth Control Debate

Date: Week of June 12<sup>th</sup>, 2005

Info: The debate over birth control will be at the top of the agenda, for Wisconsin lawmakers this week. There are two different proposals on the table. Republicans would like to pass a Pharmacist Conscience Clause, which would allow pharmacist's the right now to fill birth control. But Democrats have countered and introduced the Birth Control Protection Act, which would force pharmacists to fill those prescriptions. They would be fined if they don't. Governor Doyle says he will veto the Republicans plan if it reaches his desk.

Title: North-South Corridor

Title: Menards Pleads Guilty

Date: Week of May 17<sup>th</sup>, 2005

Info: The Menards Home Improvement stores has plead guilty to violating enviornmental laws. The company faces up to 2.5 million dollars in fines. The charges involve the disposal of chemicals at the Eau Claire Distribution Center. The company sent spray paint, oils, and neutralized battery acid into a floor drain that eventually emptied into the Chippewa River. The company blames the discharge on a problem with the drain. They say the drain should have sent the wastes elsewhere. A formal punishment is expected in August.

Title: Hybrid Cars

Date: Week of April 12<sup>th</sup>

Info: With gas prices on the rise, more and more people are turning to enviornmentally friendly cars, like hybrids. Hybrid vehicles used to appeal only to a small segment of the public are taking off in the mainstream. But sales around the nation are spiking, with parts suppliers unable to meet the demand of the automakers. Many pre-owned hybrids are selling at higher prices than new model, simply because they're slightly easier to find. Drivers have more of a selection when it comes ot hybrid cars now, too. Consumers used to have to drive very small, slightly unusual looking cars if they wanted a hybrid. Now, you can't tell them apart from traditional cars. Some newer hybrids are due to hit the market over the next few years.

Title: Dry Weather

Date: Week of June 22<sup>nd</sup>, 2005

Info: The hot and dry weather is taking its toll of farm fields. The La Crosse area is about three inches below normal in precipitation for this time of year. This year, the area only has about 10 ½ inces of precipitation. Last year at this time, there was about 23 ½ inches. Farmers say they're crops are really taking a hit with the lack of rain. Only about 56 percent of the Wisconsin corn crop is considered to be in good condition. This spring is similar to 1988's dry spring.

## **FCC 4: EDUCATION**

Title: UW-L Freshman Retention Rate

Date: Week of May 24<sup>th</sup>, 2005

Info: It's getting more difficult for students to get accepted into UW-La Crosse. And the ones that get in, don't want to leave. The university says 80% of freshman return for their sophomore year. In Wisconsin, only UW-Madison has a higher retention rate with 92%. Students say the smaller class sizes and the friendships they develop at UW-L are important reasons why they stay. Petra Roter, UW-L's Dean of Students, says it's also because students are academically prepared for their work, and professors are experienced in their fields. Nearly 95% of freshman also live on UW-L's campus. Roter says students get more involved on campus that way, and then tend to stay at UW-L.

Title: Winona State President

Date: Week of April 29<sup>th</sup>, 2005

Info: It's quite an honor for former Winona State University President Darrel Krueger. His name will live on for generations to come, as the WSU unveiled the new sign for the Darrell Krueger Library in front of a crowd of several hundred. Minnesota governor Tim Pawlenty was also on hand for the honor. During his tenure as WSU President, Krueger is credited with remodeling the look of the campus. He added new buildings and landscaping to the grounds. He also changed the culture of the University by describing its goal in the mission statement as a community of learners dedicated to improving the world. The university displayed a portrait of Krueger and his wife Nancy that will hang inside the library. Krueger stepped down from his post at the end of June.

Title: School Shooting Threat

Date: Week of April 26<sup>th</sup>, 2005

Info: Six years ago, 13 people died in the Columbine High School shooting. Just a month ago, a similar tragedy happened in Red Lake, Minnesota. Now, Winona High Senior High School is dealing with rumors that a school shooting may take place there. The rumor started after the school found graffiti in the boys bathroom. The wall is washed clear now. But before, it displayed a message saying, "All whites will die on May 12<sup>th</sup>." Then, a student considered credible by the school's principal came to report a conversation she overheard. She says students were talking about a shooting plot. Winona police are following every possible lead. They also plan on having extra security at the school on May 12th. Winona Senior High School does not have working video cameras, or metal detectors. They do have lock-down procedure in place.

## **FCC 5: PUBLIC HEALTH**

Title: Heart Procedures

Date: Week of May 31<sup>st</sup>, 2005

Info: New research shows one procedure may be more effective when it comes to treating blocked arteries in the heart. The New England Journal of Medicine shows heart bypass surgery lasts longer and has more success, than angioplasty. Researchers followed 60,000 patients who had the procedures between 1997 and 2000. 28% of those who had angioplasty had to return for a second procedure. Only 5% of bypass patients went back for another procedure. But doctors say the study ended 5 years ago and since then, new advances make angioplasty more effective. Doctors also say every situation and patient is different, and it's important to discuss any possible procedures with your doctor.

Title: Methamphetamine Control

Date: Week of May 3<sup>rd</sup>, 2005

Info: In 2007, Wisconsin will lose nine million dollars in federal funding to fight drugs like methamphetamine. Some fear the cut will lead to an increasing spread of the drug across the state. Right now, authorities find about 100 meth labs in the state a year. But that number is 10 times as large in states like Minnesota and Iowa. Wisconsin officials fear the meth problem could creep into Wisconsin. To stop the spread, lawmakers are looking into potential legislation that would limit how you get pseudoephedrine, which is often in cold medicines and a key component to make meth. Methamphetamine use can trigger violent behavior in people and is extremely addictive.

Title: Eating Disorders

Date: Week of June 7<sup>th</sup>, 2005

Info: Eating disorders are commonly viewed as a problem among younger women, those in their teens and 20s. But doctors around the country are noticing a new trend. An increasing number of women over the age of 30 are seeking help for eating disorders. Experts call it the "Desperate Housewives" effect. They say seeing thin, 30-year-olds on TV plants the idea that women should be thin at every age. While eating disorders specialists say a record number of older women are developing disorders. They also say it's likely that body issues have plagued these women for years. Eating disorders also appear when a woman feels like her life is out of control. Things like divorce, or career difficulties can all trigger eating disorders.

## **FCC 6: RECREATION**

Title: Onalaska Pool Opens

Date: Week of June 22<sup>nd</sup>, 2005

Info: After several weeks of delays, the new Onalaska pool is finally open for business. The pool was supposed to open on June 4<sup>th</sup>, but bad weather and construction delays pushed that date back to June 16<sup>th</sup>. But that date was postponed as well, when state inspectors found a problem with the tile around the pool. It was too steep and presented a safety hazard. But as of today, the problems are solved. And judging by the reaction of kids, the wait was well worth it. The two million dollar complex includes a swimming pool, three water slides and a kids play area. It's open seven days a week, and various times.

Title: Onalaska YMCA

Date: Week of June 9<sup>th</sup>, 2005

Info: The La Crosse YMCA has broke ground on its new Onalaska facility. It's an eight million dollar project paid for by contributions and grants. The 60,000 square foot facility will offer a gynasium, walking-jogging track, and indoor pool. The new Y will be able to better serve people in the faster growing communities north of La Crosse with very affordable youth membership rates. The YMCA does offer financial assistance for those families who need help. The facility should be open one year from now.

Title: Dog Training

Date: Week of May 24<sup>th</sup>, 2005

Info: It's a new twist on the old saying, you can't teach an old dog new tricks. We wanted to find out if that is literally true. So, News 19 meterologist John Campbell and his dog Truman went in search of the answer. Truman is five years old and still doesn't listen to John when he calls him. Truman also jumps up onto people when he greets them. John's tried just about everything, but nothing works. So now both are learning a few new tricks from an expert. She helped John put Truman on leashes of different length. John worked on calling him, and then pulling on his leash. As for the jumping, experts say step into the dog's space when he's getting ready to jump. Also, never pet or pay attention to your dog unless they've got all four paws on the ground.

Title: Upper Mississippi River Refuge Restrictions

Date: Week of June 13<sup>th</sup>, 2005

Info: The U.S. Fish and Wildlife service will begin holding a series of workshops, that focus on their proposed reforms for the upper Mississippi River Refuge. Over the last month, thousands of people have showed up at public forums to debate the proposals. Most who speak at the meetings are against the proposals. The government is proposing sweeping reforms to the refuge, including hunting fees, camping restrictions, and electric motor zones on the river. Now, the Fish and Wildlife Refuge will move the debate to public workshops, which they hope will be less intense.
